## OSSTEM MASTER COURSE ADVANCE COURSE

### Sinus Lift Surgery Course Overview

The course is specifically designed to provide a comprehensive and advanced curriculum to ensure that participants acquire in-depth knowledge and hands-on experience with the Osstem Sinus Lift kit, CAS KIT, and LAS kit. The Osstem Master Course places emphasis on practical, hands-on training, enabling participants to apply their theoretical knowledge in a real-world clinical setting. This approach enhances skill development and confidence in implementing learned techniques, resulting in improved performance.

### Course Director

Dr Eugene Foo graduated from the University of Sydney with a Bachelor of Dental Surgery with Honours and later completed a Graduate Diploma in Clinical Dentistry (Oral Implants) from the same university. Eugene has a particular interest in reconstructive and implant dentistry and is a Fellow by examination of the Royal Australasian College of Dental Surgeons. Eugene has served on many committees including several on the ADA and is currently a lecturer and examiner for the Graduate Diploma in Clinical Dentistry (Oral Implants) at the University of Sydney. Eugene is a member of the International Team for Implantology and is also the current NSW President of the Australasian Osseointegration Society, Australia's leading implant society. Eugene worked as a Senior Dental Officer at Westmead Hospital where he was a Clinical Associate Lecturer teaching undergraduate students in both general dentistry as well as oral surgery.
